

Look Familiar? Look Again...

Every Terminal you see on this page has an alternate radio in it.

Why?...

There's an entire community of users that are requesting Symbol data collection devices with alternate 802.11b radios, and now selling these devices is as easy as contacting Chameleon RF™.

- Your customers have already chosen their infrastructure vendor
- They want and need to maintain a single radio vendor
- You can now present a Symbol solution, AND earn a **COMMISSION!**

### What's the benefit to Symbol?

- Your customers have limitless WLAN purchasing choices, now you can compliment those choices by keeping a Symbol terminal on their network
- You can make additional Symbol sales through these unique devices, including battery chargers, cradles, holsters, etc...
- You can keep your Symbol relationships intact

In a complex industry with limitless Wireless LAN choices, Chameleon RF™ is helping to keep things Symbol.
